3. Response received from CISC regarding our request to add a new objective to research the pros/cons of reducing the compulsory school attendance requirements will be shared and discussed
4. In reviewing the annual reports of the subcommittees, we found that there is some duplication of efforts. For example, the School Discipline and Climate subcommittee has an objective carried over from objectives identified in the 2016 EOTF Annual Report that is directly focusing on Indiana's accountability law and graduation data reported to the IDOE, which includes mobile and home school youth data. Through the work of the educational passport subcommittee, the

accountability and graduation data reported for mobile youth will be addressed. In the same vein, the graduation rates of home schooled youth is not data the state agencies have any authority to require collection, and therefore the data voluntarily reported would not be all inclusive. What is the task force's vote regarding removing these two populations from the objective under the School Climate and Discipline's assigned tasks?

5. Clarity Needed – The carried over objective of the School Discipline and Climate Subcommittee reads “Review Indiana’s school accountability law and graduation data reported to the Indiana Department of Education, including data specific to “mobility” and “home schooling.” There is no deliverable indicated for this objective. Based on the vote to be taken on point 4, what is the deliverable the task force members expect to be created from this review?
6. Status update of Work of Subcommittees
 - a. Education Passport Model Update:
 - b. School Discipline and Climate Update:
 - c. Mental Health Support in Schools Update:
 - d. Open Discussion – Do the Subcommittee chairs have anything they would like to discuss with the task force members regarding their objectives/deliverables/deadlines/etc.?
7. Review Strategic Plan Tracker and Timeline and deliverables
 - a. How much time will we need to request to present the deliverables of the Mental Health Supports in Schools subcommittee?
 - b. Do any of the other subcommittees have any deliverables ready to be included in our presentation to the CISC in August?
 - c. What objective do we believe should be the next one to begin working towards completing?
 - i. Who on the task force would like to be the co-chairs to lead the subcommittee to address this objective?
 - ii. Do the task force members have any suggestions for potential candidates who would be best suited to assist in achieving this objective?
8. Youth Voice – Any additional items to be brought forth for discussion by youth
9. Executive Director, Julie Whitman – CISC Update from Executive Committee
10. Any additional items to be brought forth for discussion by task force members
